

Affordable Gaming Power

VenoM delivers mainstream gaming performance at entry-level pricing. Featuring the latest quad-core AMD FX-4100 processor and discrete Radeon HD6770 graphics, the VenoM packs a potent yet affordable punch.

- AMD **FX-4100** Black Edition Quad-Core Processor
- 4GB Corsair XMS3 DDR3-1333
- AMD Radeon HD6770 1GB
- 500GB SATAII Hard Drive
- BitFenix Shinobi Gaming Chassis

Starting from \$599

Versatile

Speed up everyday computing tasks such as photo and video editing with the quad-core processor, while the 500GB hard drive is large enough for all your documents, music and videos. The VenoM is more than just a gaming PC – it's the centre of your digital world.

Flexible

When the time comes to upgrade, there's no need to ditch your investment. The VenoM is fully future-proof and has been designed with easy upgrading in mind, regardless of whether you upgrade when you order, or a few years down the track.

Specifications

Processor
